Evidencer Pro

Evidencer Pro

Senzit™

Powerful and practical
support suite for collecting,
investigating and curating evidence

Evidencer Pro comes in the form of a professional compact kit comprising, integrated software and hardware required for capturing evidence anywhere any time. The Evidencer pro is a complete portable solution which works on enterprise mobility platform and can be easily integrated to any other Application.

Evidencer Pro is an agile and flexible digital media capturing product of Evidencer. It is the basic version of Evidencer, which is a digital recording solution for small courts, legal offices, meeting rooms, Etc. It can digitally capture meeting/court room proceedings and play them back. It has four channels of audio and video embedded within to allow recording. It also has the feature to transfer locally stored audio and video to the central server for referencing in the future.

Our Evidencer Pro product suite comes packed with a rich set of features that makes it very powerful, robust and highly intuitive, as mentioned below:

- Rich set of powerful tools delivering greater insights, intelligence and transforming the decision making process.
- Supports 4 channel Audio and Video recordings straight from the court rooms, place of actions.
- Enables creation of rich, cross-platform apps without the use of code translation, proprietary interpreters or unpopular scripting languages.
- "Anytime, Anywhere" - Deploy and manage applications and services without the constraint of time, location or device type.
- Cloud enabled product suite enabling On Demand usage
- Integrated development environment -Services to develop, test, deploy, host and maintain applications in the same integrated development environment.
